

United Nations High Commissioner for Human Rights,  
Director of MENA Section at the High Commission,  
Special Rapporteur on Freedom of Opinion and Expression,  
Special Rapporteur on the situation of human rights in the Palestinian territories  
occupied since 1967,

After Greetings,

We, the signatories of this petition, demand the opening of an urgent international investigation as well as the formation of an independent investigation committee from the United Nations Human Rights Council to produce a comprehensive report that monitors Israeli crimes against journalists and media professionals in the occupied Palestinian territories.

Until this petition was written and submitted for signature, the Palestinian Journalists Syndicate reported that since the beginning of the aggression against the Gaza Strip on October 7th of this year, the martyrdom of 24 Palestinian journalists, in addition to Lebanese journalist Issam Abdullah, had been monitored by Israeli occupation rockets and shells.

The signatories of this petition, while demanding the opening of an urgent investigation into the occupation's crimes against journalists in the occupied territories, are counting on what remains in the human conscience of respect for freedom of the press and the protection of journalists during wars and armed conflicts.

The signatories affirm that the occupation's violations, which amount to war crimes and crimes against humanity, and the disregard for all conventions and treaties that protect civilians during wars are nothing but a continuation of the policy of the occupying state, which crushes everyday international humanitarian law, international human rights law, and the Geneva Conventions and their protocols. It requires a real pause to awaken the global conscience.

The signatories of this petition call on international institutions and bodies concerned with freedom of the press and freedom of opinion and expression to form an independent investigation committee, announce the results of its work to world public opinion, and activate the role of the Human Rights Council, the United Nations Educational, Scientific, and Cultural Organization (UNESCO), and the United Nations High Commissioner for Human Rights in This absurd international scene, in which the countries of the Global North wear Israeli glasses, does not see the slaughter of journalists and the silencing of the voice of truth as any crime that deserves punishment.
